Target Query: Data Analyst

Reference Job Title: Data Analyst

SUMMARY

Looking for opportunities in data analyst where I can contribute to real projects and learn fast.

I like turning requirements into clear steps, collaborating with others, and documenting decisions.

The Institute for Health Metrics and Evaluation (IHME) is an independent research center at the University of Washington.

Its mission is to monitor global health conditions and health systems, as well as to evaluate interventions, initiatives, and reforms.

IHME carries out a range of projects within different research areas including: the Global Burden of Diseases, Injuries, and Risk Factors; Future Health Scenarios; Costs and Cost E.

SKILLS

Health • Research • Analytic • Results • Different • Diseases • Ihme • Quantitative • Databases • Global • Data Analyst • Factors • Analyst • Policymakers • Risk Factors • Risk • Policymakers Donors • Better • Documentation • Problem Solving • Communication

PROJECTS

Project 1: Practical Case Study

- Built a small case study related to data analyst and wrote a short report explaining the approach and trade-offs.
- Used tools and concepts such as Health, Research, Analytic, Results, Different, Diseases to implement and validate results.
- Focused on clear outputs: metrics, examples, and simple visual checks.

Project 2: Workflow & Communication

- Created a checklist-style workflow (inputs → processing → outputs) to make work repeatable.
- Shared progress updates and documented decisions to make handover easy.

EDUCATION

Bachelor of Computer Science (Undergraduate) — 2023–2026

Coursework: Databases, Software Engineering, Data Analytics
