Target Query: Data Engineer

Reference Job Title: GENERAL ENGINEER

SUMMARY

Looking for opportunities in data engineer where I can contribute to real projects and learn fast. I like turning requirements into clear steps, collaborating with others, and documenting decisions.

Duties Summary About the Position: Defense Contract Management Agency uses the Expedited Hiring Authority to recruit and appoint qualified individuals directly into shortage category.

Responsibilities Responsible for gathering, analyzing, and synthesizing assessment of the contractor's program performance as well as recommendations for future programmatic effort. Timely periodic reporting identifies the current condition of the program in terms of cost, schedule and technical performance and also makes predictions of future program performance.

PROJECTS

Project 1: Practical Case Study

- Built a small case study related to data engineer and wrote a short report explaining the approach and trade-offs.
- Used tools and concepts such as Engineering, Education, Required, Eligibility, Service, Copy to implement and validate results.
- Focused on clear outputs: metrics, examples, and simple visual checks.

Project 2: Workflow & Communication

- Created a checklist-style workflow (inputs → processing → outputs) to make work repeatable.
- Shared progress updates and documented decisions to make handover easy.

EDUCATION

Bachelor of Computer Science (Undergraduate) — 2023–2026

Coursework: Databases, Software Engineering, Data Analytics
