Target Query: Machine Learning

Reference Job Title: Clinical Database Analyst / Reports Writer (MCC-CISS)

SUMMARY

Looking for opportunities in machine learning where I can contribute to real projects and learn fast.

I like turning requirements into clear steps, collaborating with others, and documenting decisions.

Qualifications Required Qualifications: BA/BS and 6+ years of relevant analytical or quantitative work experience, or an advanced degree with a minimum of 4 years of experience in .

Experience must include a minimum of three years of experience querying, extracting, formatting, and analyzing healthcare data such as clinical trials data, adverse events, inpatient.

Experience working with messy real-world data Experience working independently in a rapidly changing scientific environment Proficiency in report writing using SSRS and JasperReport.

SKILLS

Research • Clinical • Informatics • University • Opportunities • Working • University Minnesota • Ensure • Project • Services • Minnesota • Needs • Reports • Investigators • Experience Working • Staff • Quality • Users • Documentation • Problem Solving • Communication

PROJECTS

Project 1: Practical Case Study

- Built a small case study related to machine learning and wrote a short report explaining the approach and trade-offs.
- Used tools and concepts such as Research, Clinical, Informatics, University, Opportunities, Working to implement and validate results.
- Focused on clear outputs: metrics, examples, and simple visual checks.

Project 2: Workflow & Communication

- Created a checklist-style workflow (inputs → processing → outputs) to make work repeatable.
- Shared progress updates and documented decisions to make handover easy.

EDUCATION

Bachelor of Computer Science (Undergraduate) — 2023–2026

Coursework: Databases, Software Engineering, Data Analytics
