PROJECTS

Project 1: Practical Case Study

- Built a small case study related to business analyst and wrote a short report explaining the approach and trade-offs.
- Used tools and concepts such as Applications, Business Applications, Sralab, User, Information, Analyst to implement and validate results.
- Focused on clear outputs: metrics, examples, and simple visual checks.

Project 2: Workflow & Communication

- Created a checklist-style workflow (inputs → processing → outputs) to make work repeatable.
- Shared progress updates and documented decisions to make handover easy.
